Intention for failure to remove indirect and hidden taxes, to encourage development of natural resources and to reconvert the Dominion-Provincial conference.

John Bracken, Progressive Conservative leader, launched an attack on Communists and urged the government to "mop up" on communism in Canada.

"WHAT IS MAINLY needed now," he said, "is to let the Communists know, in a very blunt but nevertheless friendly way, that so far as we are concerned, they are entitled to their own type of economy, so long as they desire it, but that we have no use for their underground activities in this country, and that we propose to send their agents back home wherever we can root them out."

Finance Minister Abbott said the opposition had been "hard put" to find any effective criticism of budget proposals.

Saltpetre, used in curing meats, acts as a preservative and helps retain the natural color of the meat.

SEE THE CHANGE IN YOUR TEETH AS PEPSEODENT TOOTH POWDER GIVES YOU DENTAL WHITENESS

After a dentist cleans your teeth it's amazing how white they are! That's real dental whiteness and he relies on powder. For instant dental whiteness is removed, it hardens—darkens—turns into harmful, ugly tartar. But Pepsodent Tooth Powder is especially made to remove that trouble-causing film—gently, but thoroughly—right in your own home. Change today to Pepsodent Tooth Powder and give your teeth dental whiteness.

IT'S TRUE! PEPSEODENT WILL GIVE YOUR TEETH THE DENTAL CLEANLINESS THAT MEANS DENTAL WHITENESS

Hang Nazis

(Continued from Page 1)

lives of the 48th man claimed his body.

The bodies were placed in plain wooden coffins as they were removed from the black gullies.

It was the greatest mass execution carried out by the army.

ALL 48 MEN hanged yesterday and today were convicted of murder in the torture at Mauthausen camp.

S. S. General August Eberlein of Linz, Austria, once the gaoler of Oberdanau, was the most prominent on today's death list. During the trial at Dachau he was quoted as saying of Russian prisoners at Mauthausen, "All these swine will have to be finished."

LANDSBERG, Germany, May 28.—(AP)—Will Frey, 23, who was a guard at Mauthausen concentration camp, told jurors that he was going to sing "Give Me Five Minutes More" and "Open the Door, Richard" as he marched the last mile to the gallows this morning.

When the time came to go, however, he was completely subdued. The first words, delivered slowly, haltingly and without bravado were: "I am praying like Jesus on the Cross. I am dying without fault. Father forgive me."

Nine Nuns

(Continued from Page 1)

several of the Spanish-born sisters in the party had experienced the terrors of the Spanish Civil War.

THEY HAVE BEEN for some time in the Philippines where the order has several convent schools, preparing for their trip.

"Things are very bad in Italy with so many political parties struggling for power," Mother Martin-Crawford said.

"The Americans have done an immense amount of work to alleviate hunger and distress in Italy and the people are very grateful."

Communism is "coming up strong in Italy and the movement is very difficult to oppose," the nun stated but added that despite the Red trend, Pope Pius XII is still a towering figure of spiritual strength in Italy.

MOTHER MARTIN-CRAWFORD has had several audiences with the Holy Father and she considers him "magnificent."

"We are very happy to be on the way to Tokyo where we feel we can do a lot to save those poor souls who have suffered so much in the war, the nun added.

"There has been a great swing towards the Catholic faith in Japan since the war ended. Many priests and nuns remained in Japan throughout the war and some of our convent houses in Tokyo was completely destroyed by fire bombs."

"I LOVED IT and I shall be leaving the United States. But I am sure we will all be happy in Japan in the new life," she concluded.

In a half-hour stay at the Edmonton airport the sisters spent the time chatting in the office of the Red Cross. W. F. Hancock, special representative of the Red Cross at the Orient division Northwest Airlines, and Lee Huston, station manager.

They expect to reach Tokyo on Friday.

SEVERAL NEW HOUSES FOR SALE

Complete and ready for occupancy. This is a new housing project, with all city utilities and gas, convenient to transportation and city centre. Minimum cash payment \$1000; balance, including taxes, less than rent. Located on 85th avenue at 21st and 22nd streets.

Scientists Contemplate Making Rain of Death With Atom-Bomb Blast

(Continued from Page 1)

BY ELTON C. FAY

WASHINGTON, May 28.—(CP)—Scientists are weighing the possibility of exploding an atomic bomb in the midst of a cloud to create a rain of death.

The advantage of this technique, experts studying the plan told a reporter today, is that a city far inland could be drenched with rain—activity without the necessity of exploding a bomb over the city, as was done in the Bikini experiments.

Until now, coastal cities or those near large rivers or lakes were the most probable targets for such a type of atomic bombing.

It is, however, a definite possibility that the very power and heat of the bomb might be used to create a rain of death.

Some scientists contend that a bomb exploded in a cloud bank might first blast the cloud away and then dissipate its

moisture high into the air and away from the target.

But proponents of the idea say it would be necessary only to watch the drift of weather toward a target and select a day when rain clouds contain thousands of feet thick were floating overhead. Radar would pick up the target for the bombing plane, and the bomb would be exploded in the thick of the storm. Rain falling from the clouds would be poisoned with the deadly by-products of the bomb's explosion.

Military strategists also are eyeing rain clouds in connection with another recent scientific discovery, creation of artificial snow or rainstorms by the release of "dry ice" or solid carbon dioxide into clouds.

Almanac men say that in the dry ice technique if it can be developed to the point where a whole cloud mass can be turned into water and precipitated.

Refit Big Liner

SAINT NAZAIRE, France, May 28.—(Reuters)—The French 44,000-ton liner Le de France is being completely refitted here to take her place again sometime next year in the service to New York. She served as an Allied troopship for seven years and carried many Canadian troops.

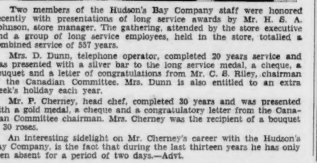

There are more than 450,000 species of insects.

Survives Trip Through Hopper
PROVIDENCE, R.I., May 28.—(AP)—William Sweet, 35, yesterday was sucked into 85 tons of sand in a huge hopper here and 15 minutes later was fanned through a 15-inch square hole at the base of the 16-foot chute—unconscious but alive. Revived with an inhaler the boy was treated at hospital for shock and sent home with only a bruised leg. Sweet was playing

with other boys around the top of the hopper, which is level with a vacant lot beside a sandwich. Work men started a belt conveyor to load a nearby cement mixer and Sweet and another boy were sucked into the chute. Sweet helped the other boy reach a cross bar and then sank out of sight.

Nevada is the only state in the Union that does not levy inheritance and estate taxes.

Allocated by Draw Only
Government Builds Houses Selling to Vets at \$2,500
OTTAWA, May 28.—(CP)—The government agency that has been building five or six-room bungalows for veterans for as low as \$2,500.

THAT INFORMATION WAS TUCKED into one of the paragraphs of the annual report of R. F. Thompson, director in charge of the department of labor. It was tabled in the Commons by Labor Minister Mitchell.

The secret, Mr. Thompson said, lies in the fact that his staffs have been training veterans for the building trades and decided that they might as well build houses while they were at it. The four western provinces, about a dozen houses have been built or are being built.

Their sale is parallel to that, with a draw by the Canadian Legion or similar body deciding the lucky man. The sale price is the actual cost of the materials. In other words, there were no labor costs.

PRICES VARIED FROM \$2,500 IN ALBERTA TO \$4,500 IN British Columbia. Some were built on Canadian Vocational Training premises and were then moved away. Others, notably in Vancouver, were built right on the site.

Usually five-or six-room bungalows, they were turned over ready for occupancy, with all plumbing and electrical installations in and all plastering and decorating done. In Vancouver, there had a brick fireplace, furnace, and laundry tubs installed in the basement and a one-car garage on the premises.

Moisture Needed Soon
Report Satisfactory Prospects for Crops

OTTAWA, May 28.—(CP)—Over-all crop prospects on the prairie provinces are considered to be "generally satisfactory," the Dominion Bureau of Statistics said yesterday in the second of a series of 16 telegraphic reports on Western conditions.

THE SUMMARY said "below-normal" temperature have prevailed for the last week throughout the prairies and have retarded germination and growth in many districts.

Average rainfall since April 1 has been "well below normal" but soil reserves have been adequate enough to maintain general good moisture conditions.

Wheat seedlings in Manitoba are nearing completion while Saskatchewan and Alberta have reported seedlings 83 and 90 per cent complete, respectively. More than half of coarse grain acreage in all three provinces now is planted.

"Warmer weather soon is required and rains would be helpful, particularly in some districts where soil drifting has commenced or is imminent," the report said.

THE DETAILED report for Alberta follows: Satisfactory progress has been made with seedlings and about 90 per cent of the wheat crop has been sown. Coarse grains seedling is 50 to 60 per cent complete. Some wheat and some heavy rains delayed seedling in some areas. Moisture conditions are generally satisfactory throughout the province but rains would be welcome in many districts. Germination and growth of the new crop have been slow in the most districts because of cool weather.

The crop is further advanced in the southeast where seedling is practically completed and early wheat is four inches above ground. Topsoil in this district is reported dry and rain will be needed for complete germination of late sown crops. Fall rye is heading out in the area of Medicine Hat.

IN THE NORTHEAST, wheat seedling is nearing completion and good progress has been made with coarse grains. Moisture conditions are good to excellent but with cool weather growth is slow. Sugar beet seedling is practically completed and germination is reported fair. Thinning operations are progressing but some concern over labor is reported.

Seedling is expected to be completed within the week in central districts of the province. Wheat seedling is 90 to per cent completed and seedling of coarse grains is well advanced. Early-sown wheat is two inches above ground in the Calgary area. Moisture supplies are generally adequate and warmer weather is needed to promote more rapid growth. Good growth of fall wheat and rye is reported.

IN NORTHERN districts seedling is well advanced, with wheat reported 80 per cent completed and oats and barley 70 per cent completed. Seedling is expected to be completed in the Peace River district by the end of May. Emergence of the crops is satisfactory and germination is reported to be good. Rain is needed in some areas.

Average precipitation for Alberta since April 1 has been 18 per cent below normal, compared with three per cent above normal two weeks ago. Mean temperature for the week ended May 26 was one degree below normal.

Quite a Kennelful
WINNIPEG, May 28.—(CP)—A series of kennel problems and further price increases face Canada in the near future as the course of de-control is completed. K. W. Taylor, prices board chairman, warned here Tuesday.

"The board's powers will expire by next March 31," he said in an interview. "But there is a possibility the government will extend its powers over a few specific controls."

"For example, rental problems are likely to be acute in many localities throughout 1946, some of our sugar problems may not have disappeared before next April and the supply of oil and fats, including sugar, show signs of remaining difficult throughout most of next year."

But it seems certain, he added, that nearly all price controls will have disappeared before next March.

Find Polio Case
VANCOUVER, May 28.—(CP)—City health officials reported yesterday that a seven-year-old North Vancouver boy has been taken to hospital, suffering from poliomyelitis. He is the third victim in this area this year.

Police Recover Part Bank Loot
VANCOUVER, May 28.—(CP)—Police announced last night that they had recovered \$182 of the \$130 stolen in a daring daylight holdup of the Grandview district branch of the Bank of Nova Scotia here last Monday. A \$100,000 suspect has been placed under arrest.

The suspect, identified by police as Clifford Eugene Laguerre of no fixed address, was arrested following a police raid on a downtown hotel room last night. Another man and two women found in the apartment were being held for investigation.

Legislation Aids Deserted Wives
REGINA, May 28.—(CP)—Deserting husbands in Saskatchewan, British Columbia and Manitoba whose wives live in Great Britain and Northern Ireland now can be compelled to maintain their wives and children if a court order is obtained to that effect. Attorney General J. W. Cormack said yesterday.

The action is made possible through a reciprocal legal agreement just completed between Great Britain, Northern Ireland and the three Canadian provinces. Mr. Cormack said. Other provinces were considering passing of similar legislation.

Jap Wealth Pool Going to Allies
WASHINGTON, May 28.—(CP)—"Zalutski," the once mighty financial and industrial empire owned by Japan's 10 wealthiest families, will provide the first assets going into the war reparations pool, under plans being completed here.

The Far Eastern Commission is reported authoritatively to have invited Great MacArthur to order in which reparations assets shall be ascertained.

It has been estimated that about 1,000 Japanese industrial plants will form the basic source of assets to meet the reparations claims of the 11 countries contributing to victory in the Pacific.

The Zalutski group, owned by the Mitsui, Otsu, Iwasaki, Kawanishi and other reigning families, controlled the bulk of Japan's financial and industrial economy before the war. It also was the main contributor to the financing and equipping of Japan's war machine.

CANBERRA, May 28.—(CP)—A surplus of about \$100,000,000 at the end of the fiscal year next June 30 was forecast by Prime Minister Chifley in Parliament last night. Britain will receive \$40,000,000 of the surplus as a gift, he said.

Buy Gas For 1000 miles
LUBRI-GAS
Have Your Engine Deliver Up to 1200 Miles

Not Just Another Gasoline
Lubri-Gas isn't just another trade name for another premium gasoline. Lubri-Gas gasoline is a standard regular gasoline to which has been added a chemically treated high quality oil called Lubri-Gas. The chemical treatment effects an atomization of the oil particles. These particles automatically disperse uneven suspension, and order the combustion chambers with the gasoline as a fine oil mist. Lubri-Gas does what most gasolines do so far been unable to achieve. It provides perfect lubrication of the upper parts of your motor, thereby giving you the powerful, money saving performance only possible when your engine is carbon free, cool running and perfectly lubricated.
Save Your Motor Where It Breaks Down First.

Plan Stage Calf Show At Vegreville June 5

VEGREVILLE, May 28: Plans are well under way for the staging of the third annual show by the Junior Calf Feeding club at the Vegreville Exhibition Grounds on Thursday, June 5. Competing calves will be from Chipman, Innisfree, Ranfurly, Holden and Vegreville.

THIS SHOW is expected to be the best of the three, and a substantial increase is shown in the number of baby beef entered. At least 125 head of young cattle will be shown, compared to 76 last year. William Lyons will commence judging the animals at 10 a.m. that day and judging of the grand champion class is billed to take place at 1 o'clock in the afternoon. The sale of calves will take place immediately after viewing of the disposition of auctioneers Wallace Wade and Joe Sokolowski.

Executive of the Vegreville club are as follows: president, Herman Glatka; vice-president, Gordon Zeigler; secretary, Dan Grob; treasurer, committee members, C. W. Brinton, F. W. McCarty, Jack Galt and Ted Umphrey. W. P. Pidd, trustee, district agriculturist, has given these club general guidance.

Minister Leaving
HANA, May 28: Rev. A. O. McNeill of First United Church has announced that he is leaving at the end of June to take charge of Trinity United Church, Creston. Mr. McNeill with his wife and family, came to Hanna about two years ago.

Card Inspection
WASKATENU, May 28: The annual postcard inspection took place with C. M. Lyle, host, L. Stanley Gaudin, L. H. Leung and P. H. Scott of Edmonton in command. C. M. Lyle, host, L. Stanley Gaudin, L. H. Leung and P. H. Scott of Edmonton in command. C. M. Lyle, host, L. Stanley Gaudin, L. H. Leung and P. H. Scott of Edmonton in command.

Old Timer Dies
HOWDEN, May 28: A funeral service was held in the United Church for the late C. Hoffman, who died May 22. He was 80 years old. Surviving Mr. Hoffman, besides Mrs. Hoffman, in Penhold, are sons, Donald, of Westlock, and daughters, Mrs. Clarence Johnson, of Penhold, Lily and Arlene Hoffman, of Calgary.

Win High Standing
OLDS, May 28: The Junior Symphony Orchestra, with a number of Olds boys and girls as members under the baton of J. W. Hopkins of Calgary won high standing in the provincial musical festival held in Edmonton.

By winning the Bennett trophy three years in succession they are now able to retain this coveted award.

The following have been elected by Teen-Town to act as adult advisors: Mrs. C. Becker, Mrs. A. Jagosin, Constable R. Jones, Harold Reed, and Dr. F. G. Redgar. The next Teen-Town meeting will be held in the arena, May 31.

Move to High Prairie
HIGH PRAIRIE, May 28: John M. Broadway and Mrs. Broadway moved here recently from Peace River. Mr. Broadway is representative for the Veterans' Land Act administration.

Mr. and Mrs. G. F. Bishop were Edmonton visitors last week, visiting Mrs. Bishop's sister, Miss Winnie Bell.

Clifford Magee has been visiting Saskatchewan on business during the last two weeks. He returned with his mother who accompanied him from Edmonton.

Planning to Build Arena at Trochu

TROCHU, May 28: Trochu WFO is sponsoring the building of a skating arena, with additions of four sheets of curling ice, at an estimated cost of \$15,000.

About \$10,000 in loans has already been subscribed by the community. The ground has been leveled and it is expected building operations will commence around June 1. Rough labor will be donated.

The proceeds of the Elks annual Dominion Day sports will be turned in to the arena parking building fund. The management of the Clouston theatre is presenting a special show, the proceeds of which will also be turned over to the arena building committee.

Residents Protest Smoke and Fumes

RED DEER, May 28: A petition signed by 128 residents was presented to city council by a committee headed by David Brown. The petition asked that action be taken to eliminate smoke and fumes from the Central Alberta Dairy Pool Condensers.

Consultation will be held with combustion engineers in an attempt to further the action that has already been taken. Dairy engineers are endeavoring to correct the situation.

H. A. Kott, representing the publicity committee of the board of trade, addressed the council in respect to having the city donate \$300 toward the publication of publicity pamphlets for the general promotion of the city, plus the possibility of having a city float in the Calgary Stampede. Council decided to donate \$300 and have the board use the money as it saw fit.

PERMISSION To drop leaflets describing its coming air meet has been given to the Calgary Flying Club, Central Alberta branch. The club operates a club at Penhold, consisting of 70 members.

Council was granted permission from the chief architect at Ottawa for the city to use the new post office grounds for a park area.

Providing plans meet with the building inspector's approval, the council will sell property to Carlin Electric Co.

Following firms were added to the city business tax roll: Hance Lumber Co., Fittie Dress Shop, Horsley Hardware, Traders Finance, and C. R. Morton.

The sale of bulk milk will no longer be permitted for drinking purposes in restaurants after July 1, as the result of a by-law passed by the council. The by-law was introduced by Alderman Askin.

Harold Frost was granted permission to apply to the Department of Trade and Industry for a photo finishing license.

Discuss Schedules Teachers' Salaries

OLD, May 28: The local school board and the Olds school division have been discussing new schedules for teachers' salaries. The local board has offered a schedule involving an approximate total increase of \$3,000. This, however, is not satisfactory to the teachers and they are referring the matter to a board of conciliation.

Mr. and Mrs. J. Kemp returned this week from Santa Barbara, California, where they have spent the last few months. Mrs. W. E. Kemp is an Edmonton visitor this week.

Waskatenau Takes Fastball Trophy

WASKATENU, May 28: Annual school track and field meet was held in Waskatenau recently. Waskatenau won the cup for fastball competition, defeating Brighton in the final. Brighton had edged out Clodford and Waskatenau beat Sprucefield in the semi-finals.

While the committee in charge of the meet provided an interesting programme of novelty races for the junior pupils, the senior students staged some first class jumping and race events. Five schools took part in the relay race and sprint events.

Mollie Shewts of Clodford won the individual cup for girls' points, while Melvin Dodd of Sprucefield with 15 points, took the cup for boys' points.

Clodford school with the highest number of points per room will hold the school trophy again this year. The schools which attended were as follows: Clodford, teacher, H. Wilson; Riverland, Mrs. C. Plaska; Brighton, M. Dolsky; M. Gaudin; Sprucefield, Miss Lakuski and Clodford; Waskatenau, H. Z. Elliott; Miss H. Simmonds; Mrs. W. Parker, Mrs. Havrelik.

Gyro Club Hears Church Moderator

"Who, Gyro has tried to be" was the subject of an address by the Rev. Dr. Thomas William Jones, M.A., D.D., Montreal, moderator of the United Church of Canada, to Gyro and Gyrette Club members, at their joint luncheon meeting in the Macdonald hotel, Tuesday.

DR. JONES is a charter member of the Montreal Gyro Club and is chairman of Gyro International. Gyro friendship, he said, helps a person along in life. He pointed to the story of the Good Samaritan as an example.

Life is give and take, and unless people help to share others' burdens, and help them along, they are not true citizens or Gyrettes.

He was happy, Dr. Jones said, that he had been able to accompany Canadian men and women as they went overseas during both world wars, and to be among them on the battlefields.

PEOPLE SHOULD BE PATIENT.

Alberta Coal Production Slumps

Production of coal in Alberta slumped from 3,068,000 tons up to April 28, 1946 to 2,517,000 tons in the same period in 1947, a report issued Wednesday by John Crawford, chief inspector of mines, announced.

This is a drop in coal production of 450,000 tons for the three-month period.

Comparing the months of April in each year there has been a drop of 31,000 tons, the report indicates.

A detailed statement listing the mining fields shows that the drop was general all over the province, few of the mines maintained production up to the standard of a year ago.

During the Second Great War, while overseas, Dr. Jones became widely known to Gyro circles with his "Gyro-Jones Fund" established to provide cigarette money for Canadian servicemen. Gyro clubs sent more than 1,000,000 cigarettes to Gyro Jones for distribution.

The speaker was introduced by Nelson V. Buchanan, M.C., Dr. Jones thanked Dr. Jones on behalf of the Gyro, while Mrs. T. G. Brown, president of the Gyrette Club, added the thanks of the organization.

Colours cathedral took almost 600 people to complete.

Bond Men Plan Meet at Jasper

Problems concerning advanced methods of government, provincial, municipal and corporation financing will be brought before the convention of the Investment Dealers' Association of Canada, scheduled to open June 14 at Jasper.

Bond dealers from all parts of Canada will make up an expected total attendance of more than 400 at the meeting. Immediately following the convention, a second gathering has been called for Vancouver, on invitation of the British Columbia Investment Dealers' Association.

The convention will be under chairmanship of A. S. Torrey, Montreal, national president of the association.

J. W. G. Clark, Ottawa, executive assistant to the president, will act as general secretary of the convention, while Newton Hughes of Edmonton will be deputy in this post.

Among an expected large delegation from Edmonton will be John Syde, chairman of the local committee of the association. Other local men who will attend are K. S. Blair and Eric M. Duggan.

Lonesome Stowaways

These three Australian girls, Sandra Lee, Wanda Sudealer and Norma Hughes, left to right, were lonesome for their American boy friends. They stowed away on the freighter Ephraim Bravard at Sidney. When the ship's captain found them, he put them to mending clothes until the freighter docked at New Orleans.

Demand Increase Wheat Payments

A boost to \$1.80 per bushel in the initial payment for wheat and the basis of delivery at Port William, to be retroactive to include the crop year 1946-47, were two demands on the Canadian Wheat Board made over the weekend by resolution of a joint committee of the Alberta Farmers' Union and the United Farmers of Canada (Saskatchewan section). Representatives of the two farm bodies at the Edmonton meeting requested that the Canadian Wheat Board make nearly \$100,000,000 in surplus funds from wheat sales during crop years from 1945 to 1947, and that farm operation costs had risen following an amendment of wartime price controls.

Urge Poultry Men Attend Meeting

Poultry and egg producers in Edmonton and district will attend a special meeting of the Alberta Poultry Industry Committee at 2 p.m. June 11 in the Moon Temple, which is being called to consider the present price structure and market, as well as management and problems of poultry related to the industry.

The meeting, announced by L. F. Davis, district poultry products inspector, Dominion department of agriculture, will be conducted by W. A. Brown, Ottawa, assistant director of marketing and production, and manager of the poultry section, special products board.

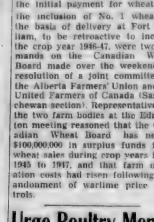

Mr. Brown will lead the price and market discussions. Practical aspects of maintaining early pullets at full production during fall and winter months, and avoidance of pitfalls resulting from reduced egg output will be among subjects taken up by Norman Schulz, a prominent poultry producer.

Increased production to meet demands of waiting overseas markets is one of the primary objects of the meeting.

Officer Retires

OTTAWA, May 28.—(AP)—The retirement of Maj.-Gen. H. O. N. Brownfield as commander, Canadian Army staff at Washington after more than 30 years' service as a permanent force officer was announced today by Defence Minister, Brig. H. E. Faber of Ottawa. Maj. Gen. Brownfield will replace him at Washington.

I Saw Today

Board to Boost Laborers' Pay

A wage increase to bring the scale up to 80 cents an hour, will be given to all general construction laborers employed by members of the Edmonton General Construction Association, who work on projects for the Edmonton public school board.

This was decided by members of the school board at a meeting in the Civic hall Tuesday night. The board will meet a delegation from Jasper Place to hear protests regarding conditions of the school in that area.

Mrs. M. E. Butterfield was named delegate to the annual general meeting of the Edmonton Council held here June 6.

In order to obtain funds for construction of the new school, the board agreed to sell \$10,000 in Victory Bonds.

Resignations were received from the following: Miss Norma McLean, Miss Grace Williams, Miss Doris M. Bette, and Fred J. Hendle. One year's leave of absence was requested by Miss Edith Kern, Miss Alberta Stewart and Miss Agnes V. Fleming.

CPR Ice House Damaged by Fire

Considerable damage was done to the CPR ice house, 77 avenue and 101 street, as a result of an early morning fire Wednesday. The blaze, which is believed to have resulted from a defect in the electric wiring, started in the basement.

The firemen's job was made much more difficult due to the heavy insulation on the walls and roof of the building. Herbert Porter, 1007 77 avenue, an employee, first noticed the flames shooting out of the chimney and turned in the alarm.

At 5:40 a.m. firemen from both Nos. 2 and 6 responded under direction of Fire Chief James Blagden. Four lines of hose were used.

Fire about 5:45 p.m. Tuesday caused slight damage to a house basement at 143 street and 102 avenue.

To Take Pictures At Jasper, Banff

Special moving picture features, including a mountain climbing sequence will be the objective of an expert photography crew who are to spend the next six weeks in Jasper and Banff mountain resorts, according to a Tuesday announcement by Miss E. C. Campbell, provincial director of tourist publicity. The pictures will be designed for showing during the winter months to U.S. tourist audiences and for general release throughout the States, as a part of the greatly augmented tourist publicity program.

Miss Campbell of New York will head the crew of photographers, who are all a part of the Hamilton Wright organization.

Mr. Meade, Mr. Campbell and Ed. Neighbor, chairman of the special events committee of the Jasper Chamber of Commerce left Edmonton at noon Tuesday for the mountain resort.

It is expected that the film men will move to Banff about the middle of June.

ARTICLES MISSING

A car heater, hydraulic jack and a trouble lamp were reported stolen from a parked car on Monday. The report was made to city police by H. Hendrickson, Union Motors, 1049 Jasper avenue. He said the vehicle was parked in the usual lot.

150 House Permits Issued Since May 1

Permits for 150 houses valued at \$737,300 have been issued by the city architect's office, from May 1 to date, to bring the cumulative total of home building permits for 1947 to 445, with a permit value of \$2,062,630, according to figures released by Maxwell C. Dewar, city architect.

At the same period last year there were more than 800 permits issued, and their value was approximately \$3,500,000. In addition to the permits issued to fire this year, Wartime Housing Ltd. has started on the construction of 250 houses for occupancy by veterans. The permits for these homes have not been issued to date.

A permit was issued Tuesday to Ogilvie Feed Mill and Warehouse Ltd. for \$16,877 covering construction of a brick and tile addition to the plant at 10327 103 street.

THE CANADIAN BEDDING CO. took out a permit for \$40,000 covering an addition to its factory at 13133 83 street, and the British American Oil Co. Ltd., a permit for \$75,000 for the construction of a metal tank and a brick office building at 11200 111 avenue.

Land sales for home-building purposes continue brisk at the city engineer's office. Tuesday 27 lots were sold, 22 of which went to Charles M. and Myron F. Jean, city contractors, for \$6,625. The lots are located in the Strathcona Place district, and it is the purpose of the buyers to erect 24 homes each costing approximately \$8,500. Five lots were bought in this district by Modern Builders Ltd., 7809 101 street. The company will erect five homes each costing \$6,000.

Ross B. Brady, contractor, purchased five lots in the Belvedere district for \$1,062 on which he will erect houses costing approximately \$7,200 each, and F. W. Sturko, 11200 58 street, paid \$2,450 for eight lots in the Highland district as building sites for homes costing \$1,000.

Two-Piano Team Scores Success

Featured by brilliant performance, well-knit cohesion and notable cooperation, Alter and Ruby Parham, Edmontonians, scored a resounding success in the main event of the 10th annual music festival, about 200 persons attended. While the audience was not large, it was enthusiastic and showed at all times a warm appreciation of the artists.

The program was long and difficult, but the artists, by dint of splendid playing, maintained interest until the end.

They played with scintillating brilliance, with highly developed technical resources and with vim and vigor. There was at all times apparent animation and team spirit between the two pianists, two minds at one.

The program included Handel's Concerto in G Major, opus 4; the Chopin Concerto No. 18 in C Minor, the Brahms Lullaby, and the Liszt's Pastorale. A special feature of the program was the playing of the piano.

Community Theatre To Hold Meeting

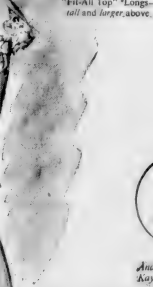

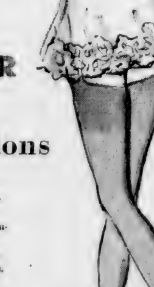

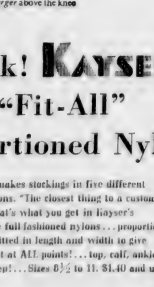

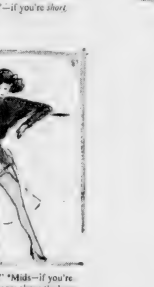

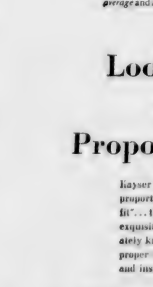

Edmonton Community Theatre will hold its annual meeting in the Museum of Arts, Thursday, May 28, at 8 p.m.

At the meeting, Mr. J. W. G. Clark, executive assistant to the president, will act as general secretary of the convention, while Newton Hughes of Edmonton will be deputy in this post.

Among an expected large delegation from Edmonton will be John Syde, chairman of the local committee of the association. Other local men who will attend are K. S. Blair and Eric M. Duggan.

The Kerr trophy, presented to the Community Theatre for annual competition, by the late Dr. W. A. B. Kerr, when he was vice president of the University of Alberta, is awarded for the best acting performance of the year. Present holder of the trophy is Elsie Park Gowan, for her performance in "Rhyolite Spirit".

The Walker trophy, now held by Pat Peters, was presented to the

Will Give Results In Feeding Tests

The University of Alberta will hold the livestock section of the University of Alberta at the University of Alberta, Edmonton, June 18-19, 1947. Several feeding trials have been in progress during the summer. The report on livestock production, which is the basis for an interesting and profitable program that should have an appeal to all livestock producers. Several hundred farm people have gathered for this event in previous years. A cordial invitation is extended again this year to visit the University on Saturday, June 18.

Sugar Beet Plants Up 75% in Decade

Twenty-five percent increase in the beet planting capacity of the Canadian sugar industry is disclosed by a comparison of figures just issued in the sugar reference book with statistics released by the same New York publication in 1935.
